

ICEMA MEMBERSHIP SERVICES

- ICEMA acts as a National point of reference for the earthmoving, mining and construction equipment industry.
- ICEMA has 9 different Panels - these Panels look after specific areas of work of the association.
- Interact closely with the Government and take up issues of concern. Submit pre-budget and post budget proposals to the Govt.
- Interact with overseas associations of similar activities (CEMA, KOCEMA, AEM, CCMA, CECE) and bring out survey on demand projection of equipment.
- ICEMA - actively involved as a Sector Partner for organizing EXCON exhibition.
- Organise Conferences on Infrastructure Development from time to time. These conferences mainly focus on key infrastructure projects in India, requirement of specific equipment in various projects, skill & manpower development and equipment financing / leasing.
- Regular Interaction with project authorities (NHA, Construction industry, mining companies, etc)
- ICEMA collects inputs from members with regard to technical matter and take up the issues of concern with the Government.
- Participate in international exhibitions and take industry delegation to major exhibitions (Bauma Munich, INTERMAT and Conexpo)
- Collect sales data from OEMs on monthly basis and bring out monthly and quarterly Industry Report.
- ICEMA - the only association in India representing construction equipment industry. ICEMA - an affiliated body of CII.
- Work with the Government in the areas of skill development and policy related matter. Infrastructure Equipment Skill Council (IESC) has been set up in collaboration with National Skill Development Corporation.
- Interact with the State Government on business opportunities in infrastructure projects.
- ICEMA closely working with Department of Heavy Industry for setting up an independent Test Center for construction equipment industry. This would provide great benefits to the Indian Construction equipment industry.
