ICEMA ANNUAL SESSION 2023

Indian CE Industry : Shaping India's Tomorrow

Sustainable | Modern | Agile | Resilient | Tech-Enabled: Infrastructure Development
1 August 2023; Hotel ITC Maurya, New Delhi

PROGRAMME

1400 - 1500 Hrs

PLENARY SESSION I

Dr. Mahendra Nath Pandey, Minister of Heavy Industries

The Ministry of Heavy Industries being the nodal ministry for the CE industry has been taking various initiatives to support the growth and development of the industry. The session would deliberate on the areas in which government intervention would further enable the industry to realise its Vision 2030 to become the 2nd largest CE industry in the world

1400 - 1500 Hrs

President, ICEMA &
Managing Director
Volvo CE India Pvt. Ltd.

Address by the Chief Guest

Dr. Mahendra Nath Pandey*

Minister of Heavy Industries
Government of India

Interaction with Hon'ble Minister

Co-moderated by: **Mr. Dimitrov Krishnan**

Mr. Arvind Garg

Past President, ICEMA and
Executive Vice President & Head-
Construction & Mining Machinery Business
Larsen & Toubro Ltd.

Vote of Thanks

Mr. Deepak Garg

Convener ICEMA Strategic Partnerships Panel &
Managing Director Sany Heavy Industry (I) Pvt. Ltd.

ICEMA ANNUAL SESSION 2023

Indian CE Industry : Shaping India's Tomorrow

Sustainable | Modern | Agile | Resilient | Tech-Enabled: Infrastructure Development
1 August 2023; Hotel ITC Maurya, New Delhi

PROGRAMME

1500 - 1630 Hrs

SPECIAL PLENARY SESSION

Robust Policy Ecosystem – An Imperative for Sustainable CE Industry

A robust policy, regulatory, and financing ecosystem is imperative for the sustainable growth and development of the industry. While an emissions roadmap can enable the industry to compete in the global market along with reducing its carbon footprint, a dedicated PLI scheme and a robust trade promotion strategy for the industry will help in attracting higher domestic as well as foreign direct investment into the country and help improve the indigenization levels on one hand and on the other it will facilitate higher exports growth. Such conducive policies would help the industry align with the Government's vision of an Aatmanirbhar Bharat and emerge as the manufacturing hub for the world. The session with the policymakers would aim to discuss the initiatives to be taken for addressing the challenges being faced by the industry with a view to enhancing its capability and competitiveness.

1500 - 1630 Hrs

Welcome Remarks

Mr. V. Vivekanand

Vice President, ICEMA &
Director, Caterpillar India Pvt. Ltd.

Guest of Honor

Mr. Vijay Mittal*

Joint Secretary, Ministry of Heavy Industries

ICEMA ANNUAL SESSION 2023

Indian CE Industry : Shaping India's Tomorrow

Sustainable | Modern | Agile | Resilient | Tech-Enabled: Infrastructure Development
1 August 2023; Hotel ITC Maurya, New Delhi

PROGRAMME

1700 – 1800 Hrs

PANEL SESSION II

Shri Pralhad Joshi, Minister of Coal, Mines and Parliamentary Affairs

The Indian CE industry is fully committed to develop a Sustainable, Modern, Agile, Resilient and Tech-enabled (S.M.A.R.T.) infrastructure to support the government's economic development programs in a sustainable manner. Various green initiatives are underway in the key end-use sectors including mining, roads and highways, railways, urban infrastructure, etc. It is the endeavor of the CE industry to partner in these efforts by way of providing innovative, efficient, as well as green machines, helping the economy move towards a more sustainable growth path. With coal continuing to account for a dominant share in the country's energy mix and the critical role of energy in the nation's infrastructure development, it has been imperative for the CE industry to actively support the needs of the coal and mining sector by meeting its requirements for new-age and green machines. Given the importance of the coal and mining sector as one of the end-users, the CE industry is keen to understand the government's plans for the growth of the Indian mining and coal sector and the ways in which the CE industry can contribute to these plans.

1700 - 1800 Hrs

Welcome Address
Mr. V Vivekanand

Brief on Indian CE industry
Mr. Sandeep Singh

Sustainable | Modern | Agile | Resilient | Tech-Enabled: Infrastructure Development
1 August 2023; Hotel ITC Maurya, New Delhi

PROGRAMME

1800 - 1930 Hrs

PANEL SESSION III

Shri Nitin Gadkari, Minister of Road Transport & Highways (MoRTH)

The Government of India's focus has been to build India's tomorrow through the development of Sustainable, Modern, Agile, Resilient and Tech-enabled (S.M.A.R.T.) infrastructure. The Ministry of Road Transport & Highways has been the torchbearer of this endeavour. The Indian CE industry as a provider of critical construction machinery is an important stakeholder for realising the government's focus of S.M.A.R.T. infrastructure development while promoting the green growth of the Indian economy. The CE industry has adopted the emerging new-age green technologies critical for driving the sustainable growth of both the CE industry as well as its end-use sectors. The road and highway sector contributing to nearly 40% of construction equipment demand in the country, it would be valuable for the industry to get insights into the Government's infrastructure development plans and the ways in which the CE industry can bolster its strengths and reach its full potential in contributing to these plans and nation's economic development.

1800 - 1930 Hrs

Welcome Address

Mr. Dimitrov Krishnan
